**PolyM**<sup>®</sup>  
BUILD & PLAY

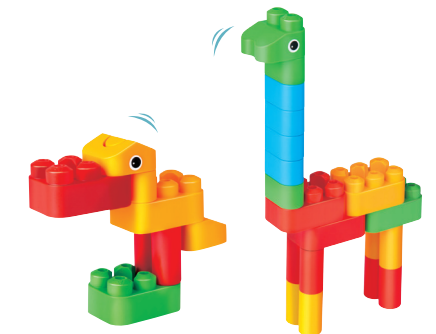

**Made in  
GERMANY**

It is fascinating to see children build and play while having fun and exploring the endless possibilities of their imaginations. For over 30 years, the unique, round-edged and flexible PolyM<sup>®</sup> construction system has been a hit among children and educators all over the world; and the power of each individual player's imagination means that it's a product that appeals to everyone, regardless of age.

PolyM<sup>®</sup> building bricks are produced in Germany, in accordance with the international standards of safety, and are regularly tested by independent testing institutes. Originally built by a father - Anton Meyer, German engineer, Founder of PolyM<sup>®</sup> - for his beloved daughters, it is fitting that the PolyM<sup>®</sup> building bricks reach new generations with each passing decade.

### 760001 Cars 'n' Creatures
